

Hello. K-LOVE helps me throughout the day to be encouraged in raising my family. It also provides programming that I can be comfortable letting my kids listen to. There are many negative influences on the radio. K-LOVE provides a positive, uplifting one. Music is healing. A place where positive, uplifting music is played provides a place of solace and sanctuary for the millions of hurting people out there. These people need hope. K-LOVE fills that need, not only with great music, but also with counseling and prayer services. If K-LOVE is removed from the air waves, these hurting people will not find a place to go in their cars and homes where they can find comfort and love when they need it. Please reconsider removing K-LOVE from the air waves. Thank you.
